

NĀ OZZETĪ
BALANGANDĀS

On her “Balangandãs” show, singer and songwriter Ná Ozzetti brings new arrangements and interpretations of Brazilian Popular Music classics immortalized by the voice of Carmen Miranda.

The project debuted in 2008 with exceptional acclaim by public and press and in 2009 will expand its reach to other local and international venues.

This CD pays tribute to the Portuguese-Brazilian singer Carmen Miranda, one of the most relevant artists of all times, as well as to renown Brazilian composers like Ary Barroso, Assis Valente, Dorival Caymmi, Braguinha, Synval Silva and Custódio Mesquita, among others, whose music turned into hits in the voice of the “Brazilian Bombshell”.

The show brings a contemporary concept in musical arrangements, script, costume design and stage lighting while expressing in an original manner the universe of Carmen Miranda and the musical scene from the 30’s to the 50’s.

“One of the best Brazilian shows in 2008, finally released on CD.”
